## Heroes of hammerwatch puzzle answers

Heroes of hammerwatch puzzle guide.

On On the top left corner of this path, another cracked wall opens a path to a room to the left of the northwest Fire Trap area. A fake wall can be seen above and to the left of the second save point. Floors[] Like the first two acts of Castle Hammerwatch, Act Three has three floors: Floor 7, Floor 8, and Floor 9. Completing the bomb puzzle creates a floating path to the Golden Ankh located above the Combo Shop. Within the room with the Strange Plank, the lower button reveals a floating path on the far left of this area. Below the first arrow trap, a button opens a small alcove with a few coins right above the room containing a Strange Plank, to the right of the floor entrance. Boss[] Main article: The Lich The boss for The Archives is The Lich. A fake wall on the southwest corner of the shop area allows access to the Vendor Coin seen next to the Vitality Shop. A button inside the fake wall above the Flower Tower opens a path to the room with the Strange Plank. Although the flower towers return, the nova towers remain. This will be addressed alongside the secrets on Floor 9. Enemies[] Act Three, like Act Two, introduces several new enemies to the player. Solving it reveals a hidden room right above. At the beginning of the corridor, there is a cracked wall, which opens up a room containing the Third Easter Egg. Secret Areas[] SPECIAL NOTE: During Act Three, there are multiple instances where buttons and cracked walls are used simply to open up shortcuts between different areas of the map, or to reveal the main path. The button next to the door reveals a long corridor above the arrow trap, giving access to a room with a chest, a pickup item and a Golden Ankh. Floor 7 Behind the first silver door, a button will open a passage to a chest located south of this area. A button above a Demon Eye Miniboss and to the left of a Flower Tower reveals the entrance to the Fire Trap room on the far right, containing an Offense Shop.
